## Reply to Office Communication

("Informality re payment of fee" and "Notice of Non-Compliant Amendment")  
date 02/01/2005 for application 10/648.649 from 08/27/2003

Not understanding reasons of instruction in par.3 and 5 of your "Informality re payment of fee", i.e. why for "a two month extension of time is due" (what extension of time are you talking about?) I need to pay \$450, but anyway, fulfilling demands of USPTO I enclose my check to cover the mentioned duty.

But I apply to you with request to explain me a reason of the payment and the sum, since studying the forms PTO/SB/22 and PTO/SB/17 foreseen by the USPTO, I have found neither reason nor size of the demanded sum that can match my case.

In addition, I also ask, in case of occurred misunderstanding and overpayment in my case in the USPTO, while further examination of my application to take into consideration difference between the sums paid by me and really requested one in accordance with the USA's laws.

Simultaneously I send you "Amendments to the claims" in the form required by you (having not changed anything in the contents of "Claims").

Appendix: mentioned on page 4.

Sincerely,

Applicant and Inventor

J.Abramovich
